## SONOMA

*In August of this year, Sonoma was ripped apart by wildfires. Between COVID and fire, many of our closest wine making friends have had a tough year and we thought, "How can we help?" The answer is pretty obvious and tasty: Buy their great wines. This is a chance to do that. We've teamed up with four incredible winemakers and friends from Sonoma for a very unique case of wine available to Unsukay guests. It's hard to find better people, and wine. Buy a case or two for the house and give some to friends. Drink & do good! **[More Info + Orders Here](#)***

## HUNNICUTT

*Justin Stephens and his family, proprietors of Hunnicutt Wines, lost their house and the majority of their winemaking equipment in the recent Glass Fire in Napa Valley. Justin and his family are friends and longtime supporters of Unsukay. In 2018, we selected a barrel of Hunnicutt Fearless red wine and had it bottled for us. We have 6-pack cases available for our guests to purchase. All proceeds will go directly to Justin and his family to help them rebuild Hunnicutt. This is a beautiful wine to enjoy in good company, or to give as a gift this holiday season. Let's help our friends start to rebuild!*
